

COLORADO FIRECAMP

S-212 Wildland Fire Chainsaw Course

This course focuses on sawyer safety, human factors, and risk mitigation while introducing the use and maintenance of gas-powered chainsaws for professional and private applications.

Why take this course?

Proper chainsaw use is essential for wildfire safety and improving forest health. Students will gain hands-on experience in: bucking, limbing, brushing, and felling.

Who should take this course?

Open to anyone interested in chainsaw training, including wildland firefighters, private landowners, and homeowners. No prior experience required!

Dates: May 22nd-25th

Location:

843 Granby West Circle,
Granby, CO 80446
(Field days TBD)

Cost: \$575

Class size: Limited to 15 students
(fills quickly—register early!)
